Experience

Junior Software Developer

January 2025 – Present

Alagu Tech Solutions

Virudhunagar, TamilNadu

- Building and maintaining scalable web applications using React.js, JavaScript, and Bootstrap.
- Collaborated cross-functionally with design and backend teams to deliver user-friendly interfaces and seamless user experiences.
- Developed responsive layouts, integrated APIs, and optimized front-end performance for speed and accessibility.
- Took ownership of modules such as authentication (OTP login), payment gateway integration, and dynamic UI components.
- **“Contributed to a web-based bill payment portal (Finnpays) focusing on user experience and reliability”.**

Software Developer Intern

October 2024 – December 2024

Infonel Technologies

Kovilpatti, TamilNadu

- Collaborated with the development team to build and enhance web applications using React.js, Bootstrap, and JavaScript.
- Developed responsive UI components, modals, and reusable forms with validation and API integration.
- Gained hands-on experience with Git, REST APIs, and real-world team collaboration.

Projects

Win Promotors Real Estate Website

<https://www.winpromotors.in/>

- Developed Win Promotors, a dynamic real estate website using React.js for the frontend and PHP for the backend. The platform showcases property listings, promotes residential projects, and enables user inquiries through an intuitive, responsive interface.

Zedlogicsolutions Portfolio Website

<https://www.zedlogicsolutions.com/>

- Designed and developed the Zed Logic Solutions corporate website using React.js, delivering a modern, responsive UI. The site highlights IT services, solutions, and client engagement with optimized navigation and performance.
