# Experience

# Junior Software Developer

January 2025 – Present

## **Alagu Tech Solutions**

Virudhunagar, TamilNadu

- Building and maintaining scalable web applications using React.js, JavaScript, and Bootstrap.
- Collaborated cross-functionally with design and backend teams to deliver user-friendly interfaces and seamless user experiences.
- Developed responsive layouts, integrated APIs, and optimized front-end performance for speed and accessibility.
- Took ownership of modules such as authentication (OTP login), payment gateway integration, and dynamic UI components.
- "Contributed to a web-based bill payment portal (Finnpays) focusing on user experience and reliability".

# Software Developer Intern

October 2024 - December 2024

#### **Infonel Technologies**

Kovilpatti, TamilNadu

- Collaborated with the development team to build and enhance web applications using React.js, Bootstrap, and JavaScript.
- Developed responsive UI components, modals, and reusable forms with validation and API integration.
- Gained hands-on experience with Git, REST APIs, and real-world team collaboration.

# **Projects**

#### Cricket Club Ecommerce Website | HTML, CSS, JavaScript, Python, Django, MySQL | Github Link

- Designed and developed an e-commerce platform tailored for a cricket club, integrating features for both cricket coaching services and sports equipment sales.
- Built a responsive interface using *HTML*, *CSS*, *JavaScript*, *Python*, *Django* and *MySQL* ensuring a seamless user experience across devices.
- Enabled functionalities like product browsing, adding items to the cart, and secure payment integration to support the sale of cricket gear, including helmets, bats, balls, knee pads, and gloves.
- Optimized site performance, enhancing user engagement through intuitive navigation and efficient loading times.
